SAT/ACT Combo Practice Tests

This workshop is designed for students who are preparing, but have not yet decided which test, SAT or ACT, they will be taking. This 3 ½ hour practice test will help students determine which test is right for them and will help them attain their highest score possible. The test will be administered in test like conditions to prepare students for the real exams. The following week, students will receive test scores and feedback from a Kaplan trained professional. This is the perfect opportunity to experience both exams.
